

**GRAND CARIBBEAN
CONDOMINIUM OWNERS ASSOCIATION, INC.**

HURRICANE SHUTTER POLICY

An owner wishing to install a hurricane shutter must advise the board of directors **prior to installation** so the approved type, color and window location may be confirmed.

Shutters are permitted on bedroom windows only.

Only vinyl roll-down shutters are approved.

The color of the shutter must match the trim on the building.

Shutters must be kept in the raised "up" position unless a tropical storm watch/warning or a hurricane watch/warning has been posted by the National Weather Center.
