

**Morgantown residents are encouraged to utilize natural vegetation from the approved plant list below in order to comply with US Fish and Wildlife regulations.**

Cabbage palm trees (Sabal palmetto) and saw palmetto palms are plant materials available from many local nurseries and landscape companies. Beach sunflowers provide a natural floral vegetation and color to the landscape.

(Susan, I don't know if this link will connect to Fish and Wildlife plant list) If not, please download it from the original Morgantownpoa.com under landscaping
